

# Safety Data Sheet

acc. to OSHA HCS

Date of issue: 02/06/2025

Revision date 02/06/2025

Page 1/11

# **1** Identification

- · Product identifier
- · Trade name: 1,2-Dioctanoyl-3-Decanoyl-rac-glycerol
- Synonym decanoic acid, 2,3-bis[(1-oxooctyl)oxy]propyl ester
- · Other means of identification

# · Article number: 28554

- Application of the substance / the mixture This product is for research use - Not for human or veterinary diagnostic or therapeutic use.
- · Details of the supplier of the safety data sheet
- Manufacturer/Supplier: Cayman Chemical Co. 1180 E. Ellsworth Rd. Ann Arbor, MI 48108 USA
- Information department: Product safety department
   Emergency telephone number: During normal opening times: +1 (734) 971-3335
- US/CANADA: 800-424-9300 Outside US/CANADA: 703-741-5970

# 2 Hazard(s) identification

· Classification of the substance or mixture	
GHS06 Skull and crossbones	
Acute toxicity - inhalation 3	H331 Toxic if inhaled.
GHS08 Health hazard	
Carcinogenicity 2	H351 Suspected of causing cancer.
Reproductive toxicity 2	H361 Suspected of damaging fertility or the unborn child.
Specific target organ toxicity (repeated exposure) ?	1 H372 Causes damage to the central nervous system, the kidneys, the liver and the respiratory system through prolonged or repeated exposure.
GHS07

Date of issue: 02/06/2025

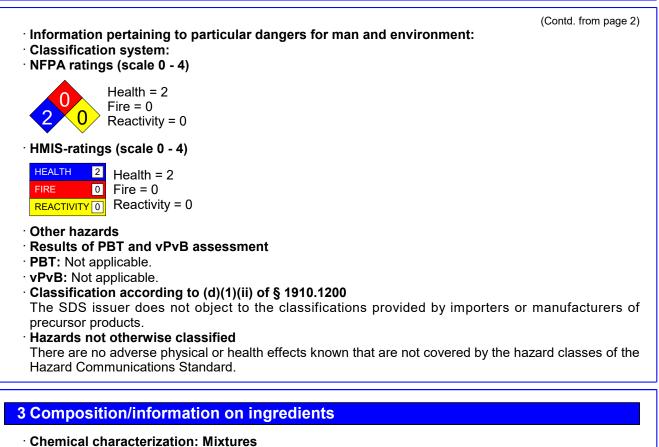

Revision date 02/06/2025

## Trade name: 1,2-Dioctanoyl-3-Decanoyl-rac-glycerol

• **Description:** Mixture of the substances listed below with nonhazardous additions.

· Dangerous components:

CAS: 67-66-3 Chloroform

RTECS: FS9100000

· Other ingredients

69095-45-0 1,2-Dioctanoyl-3-Decanoyl-rac-glycerol

# **4 First-aid measures**

## · Description of first aid measures

General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

Remove breathing apparatus only after contaminated clothing have been completely removed.

In case of irregular breathing or respiratory arrest provide artificial respiration.

• After inhalation:

Supply fresh air or oxygen; call for doctor.

In case of unconsciousness place patient stably in side position for transportation.

After skin contact: Immediately wash with water and soap and rinse thoroughly.

• After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing: Immediately call a doctor.

Date of issue: 02/06/2025

#### Revision date 02/06/2025

#### Trade name: 1,2-Dioctanoyl-3-Decanoyl-rac-glycerol

- Most important symptoms and effects, both acute and delayed No further relevant information available.
   Indication of any immediate medical attention and special treatment
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

# **5 Fire-fighting measures**

- · Extinguishing media
- **Suitable extinguishing agents:** Use fire fighting measures that suit the environment. A solid water stream may be inefficient.
- Special hazards arising from the substance or mixture 67-56-1During heating or in case of fire poisonous gases are produced.
- · Advice for firefighters
- · Protective equipment: Mouth respiratory protective device.

## 6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures** Mount respiratory protective device.
- Environmental precautions: Dilute with plenty of water.
- Do not allow to enter sewers/ surface or ground water.
- Methods and material for containment and cleaning up:
   Absorb with liquid-binding material (sand diatomite acid binders universa

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13.

Ensure adequate ventilation.

Protective Action Criteria for Chemicals

•	PAC-1	:

67-66-3 Chloroform

· PAC-2:

67-66-3 Chloroform

· PAC-3:

67-66-3 Chloroform

## · Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

# 7 Handling and storage

- Precautions for safe handling
   Ensure good ventilation/exhaustion at the workplace.
   Open and handle receptacle with care.
   Prevent formation of aerosols.
- **Information about protection against explosions and fires:** Keep respiratory protective device available.
- · Conditions for safe storage, including any incompatibilities
- Storage: Store in accordance with information listed on the product insert.

2.0 ppm

64 ppm

3200 ppm

Date of issue: 02/06/2025

Revision date 02/06/2025

#### Trade name: 1,2-Dioctanoyl-3-Decanoyl-rac-glycerol

(Contd. from page 4)

- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end use(s) No further relevant information available.

# 8 Exposure controls/personal protection

#### Control parameters

Components with limit values that require monitoring at the workplace:

## 67-66-3 Chloroform

- PEL Ceiling limit value: 240 mg/m<sup>3</sup>, 50 ppm
- REL Short-term value: 9.78\* mg/m<sup>3</sup>, 2\* ppm \*60-min; See Pocket Guide App. A
- TLV Long-term value: 10 ppm A3

• Additional information: The lists that were valid during the creation were used as basis.

## · Exposure controls

- Appropriate engineering controls No further data; see section 7.
- · Personal protective equipment:
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Store protective clothing separately.

Avoid contact with the eyes and skin.

· Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

# 10 Stability and reactivity

· Reactivity No further relevant information available.

- · Chemical stability
- Thermal decomposition / conditions to be avoided:
- No decomposition if used according to specifications.
- Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- Hazardous decomposition products: No dangerous decomposition products known.

# **11 Toxicological information**

- · Information on toxicological effects
- · Acute toxicity:

## · LD/LC50 values that are relevant for classification:

#### ATE (Acute Toxicity Estimate)

OralLD50913 mg/kg (rat)InhalativeLC50/4 h3.12 mg/l (rat)

## 67-66-3 Chloroform

Oral	LD50	908 mg/kg (rat) OECD Test Guideline 401
Inhalative	LC50/4 h	3.1 mg/l (rat) Expert judgment

## Primary irritant effect:

- on the skin: Irritant to skin and mucous membranes.
- · on the eye: Irritating effect.
- Sensitization: No sensitizing effects known.
- Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations:

- Toxic
- Harmful
- Irritant

· Interactive effects No interactive effects between components are known.

# · Carcinogenic categories

# · IARC (International Agency for Research on Cancer) 67-66-3 Chloroform · NTP (National Toxicology Program) 67-66-3 Chloroform

No non-standard sources for toxicological information where used.

# **12** Ecological information

- · Toxicity
- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Bioaccumulative potential No further relevant information available.
- Mobility in soil No further relevant information available.
- Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- Other adverse effects
- · Additional ecological information:
- · General notes:

Water hazard class 3 (Self-assessment): extremely hazardous for water

Do not allow product to reach ground water, water course or sewage system, even in small quantities. Danger to drinking water if even extremely small quantities leak into the ground.

# **13 Disposal considerations**

## · Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
- Recommended cleansing agent: Water, if necessary with cleansing agents.
